Ref. your questions concerning IHC/IGS liaison paper (numbers keyed to your attached questions):

1. Believe we don't want to commit ourselves to a formal organization to satisfy IGS needs. Believe the IGS problems should be answered through the mechanism we are now establishing. If its standards -- the Standard Panel gets it -- if a system -- the Systems Subcommittee. At the moment, this is the way I see it.

2. Group B intelligence guidance are the expressions of intelligence needs. Group A is the degree of NSA capability to satisfy these needs. There is no Group C.

3.  reations is incorporated in a revised version of the draft paper attached. He only had a few nit-picks and is in general agreement with our words. I told him that Gen. Taylor has not reviewed this action and that we don't know what we will eventually do with this paper.

4. Yes, this action avoids IHC concurrence. Can we propose this course of action to Gen. Taylor by sending him the attached?

If we do something with the attached, recommend we provide a copy to the IGS at minimum.
